

International Conference on the Teaching of Mathematical Modelling and Applications

Hosted by RUMEUS (Research Unit for Mathematics Education at Stellenbosch University)

Conference theme: Mathematical modelling and sense-making

Cape Town 23-28 July 2017
Sponsored Teacher's Day 29 July 2017

We are looking forward to welcome you in South Africa!

The ICTMA conference series started in 1983 and provide a forum for discussing and reporting on research in all aspects of mathematical modelling and applications across different areas and levels of Mathematics Education - from primary to secondary schools, to colleges and universities.

Plenary speakers: Prof Alan Schoenfeld (University of Berkeley, USA), Prof Gloria Stillman (Australian Catholic University), Prof Cyril Julie (University of the Western Cape, South Africa), Dr Piera Biccard (University of South Africa).

The local organising committee would like to put together a mailing list of all in the fields of Mathematics Education, Mathematical Modelling Education, Engineering, and Applied Mathematics interested in attending the conference. If you are interested, please send your contact details to Prof Dirk Wessels dirkwessels@sun.ac.za or to Prof Mdu Ndlovu at mcn@sun.ac.za.

Please also forward this e-mail to any colleagues or post graduate students who might be interested in attending the conference.

Dr Helena Wessels
Conference Chair ICTMA-18
